Solid ground for grand ideas

In modern design and architecture, inspiring ideas often derive from authentic, original elements. Highly creative workspaces of today often prefer referencing the industrial past. norament 926 kivo is the flooring that perfectly resonates with this modern classic atmosphere. Its raw design was inspired by concrete and exudes that contemporary look.

The flooring fits seamlessly to any blend of steel, concrete and exposed brick. It's the ideal ground to get surprising ideas.

Authentic colours, pure style

Set the right tone in any surrounding. This irregular grain design with a slightly structured two-tone surface is ideal for high demands.
