

Cradle to Cradle Gold certification of noracare™

The first rubber flooring with a Cradle to Cradle Gold rating

nora®
by Interface®

Introduction

Biodegradable clothing or units and materials whose individual components can be turned into new objects once they have reached end of life? Cradle to Cradle is committed to developing and promoting a potentially infinite circular economy.

nora is contributing to sustained eco-efficiency in the floor covering industry with our products. For our commitment to sustainability, selected colours from our noracare range recently received the Cradle to Cradle Gold certification (version 3.1). As we use different colour pigments in our noracare range, some colours are certified as Gold and others as Silver. Please see the individual classification on the next pages for more information. This milestone underlines the continuous improvement and development of our products towards a circular economy.

- | | |
|--|--|
| Material health
 | <ul style="list-style-type: none"> ▪ 100% of noracare raw materials are individually evaluated according to Cradle to Cradle® criteria ▪ noracare uses only PEFC-certified natural rubber ▪ noracare fulfills the strictest indoor air emission requirements with the Indoor Air Comfort GOLD certification |
| Product circularity
 | <ul style="list-style-type: none"> ▪ noracare uses both bio-based and post-production recycled materials ▪ We produce new noracare floor coverings from any production residues and offcuts |
| Clean air & climate protection
 | <ul style="list-style-type: none"> ▪ nora uses 100% renewable electric energy for the flooring production ▪ Interface works on absolute carbon reduction combined with carbon storage to become carbon negative by 2040. ▪ Interface's Science Based Targets to reduce absolute emissions by 50% by 2030* |
| Water & soil stewardship
 | <ul style="list-style-type: none"> ▪ Treatment of wastewater via Industrial Park's own wastewater treatment plant ▪ The water consumption for our production was reduced by 90% from a 1996 baseline |
| Social fairness
 | <ul style="list-style-type: none"> ▪ Ensuring social sourcing practices through detailed supplier risk assessments ▪ Extensive social health trainings for all employees |

* Interface commits to reduce absolute scope 1 and 2 GHG emissions by 50% by 2030 from a 2019 base year, and scope 3 GHG emissions from purchased goods and services by 50% and from business travel and employee commuting by 30% within the same timeframe.

“We have continuously developed our products and processes over the last few years to make our contribution to sustainable value creation. This has now paid off with the Cradle to Cradle Gold certification for our noracare floorings”,
says Rob Heeres, Managing Director of nora.
